Executive Summary

Thai executive and cross-sector coordinator with professional experience since 1989 across international trade and investment, economic diplomacy, tourism, aviation, media, energy and grassroots development. His present work connects government, business, communities and international partners around sustainable agriculture, community enterprise and responsible scale-up.

35+ YEARS

Multi-sector experience since 1989

3,353 KG

Documented fertilizer sales • THB
354,870

100 □ 1,000

Pilot-to-network household
pathway

Current Leadership

Community Enterprise President

Leads governance, stakeholder coordination, safe-agriculture development and external engagement. Registered 17 Aug 2023; certificate issued 15 May 2024.

BIO-NO BURN™ Project Director

Directs partner engagement, field mobilisation, evidence packaging and responsible scale-up for no-burn residue management and soil restoration.

Government–Business–Farmer Coordination

Builds tri-sector cooperation for rural livelihoods, community energy, agricultural value chains and investment-linked development.

International Cooperation

Develops technical dialogue, knowledge exchange and partnership proposals across ASEAN, China, Malaysia, Nepal, Africa, Europe and New Zealand.

Core Professional Profile

Trade & Investment

Market entry, delegations, business matching and cross-border strategy

Institutional Liaison

Government, embassy, private-sector and community coordination

Agriculture & Bioenergy

Organic inputs, biomass, biogas, community power and healthy greenhouses

Media & Communication

Economic, political, international and tourism communication

Selected Current Portfolio

BIO-NO BURN™

Community-led no-burn agriculture: convert crop residues into bio-organic inputs, restore soil, reduce dependence on external inputs and strengthen rural livelihoods.

BIO-NO BURN™ × Healthy Greenhouse

Links residue management and soil recovery with safe, traceable high-value crops, greenhouse production and post-harvest records.

Digital Knowledge Platform

Four-language documentation centre for project records, evidence annexes, field media, learning resources and responsible public communication.

Community Energy & Grassroots Economy

Planning and coordination for seven community power PPA applications and Napier-grass supply-chain collaboration among government, business and farmers.

International Partnership Development

Cooperation proposals and technical dialogues for no-burn agriculture, soil restoration, MRV, youth action, technology and knowledge exchange.

Trade, Investment & Africa Linkages

Founder of a Thai export-promotion centre for Central Africa; advisory background spanning ASEAN, China, Malaysia and East/Central Africa.

Current Programme Data — Evidence Status Clearly Stated

Internal field reporting

2,500 t/year biomass base • 5,000 rai/year no-burn reach • 55 t/year organic fertilizer • 50 activities • 500 members • 12-person team.

Documented commercial record

3,353 kg of bio-organic fertilizer sold, valued at THB 354,870, according to enterprise sales records.

Expansion design

Initial 100-household / 220-rai demonstration with four hubs; pathway toward 1,000 households and 20 clusters over 18–36 months.

Internal figures require the corresponding activity, production, member, GPS and sales records for formal third-party verification. Carbon and PM2.5 claims require an agreed baseline, methodology and verification.

Selected Professional Timeline

1989–2006

Tourism, aviation, media and logistics; airline marketing, travel journalism and coordination with television, print and tourism organisations.

1994–1996

Adviser to a Thai Senator serving the Interior Committee, supporting tourism, delegations and logistics.

2006–2009

Adviser to the Embassy of Nepal in Thailand on tourism and media.

2009–2012

Malaysia-facing trade and investment assignments; INTRADE and MIHAS; senior mission secretariat and cross-border business coordination.

2011

Secretariat roles for Malaysia high-level trade missions; advisory work in halal food, industrial development, banking, energy and investment promotion.

2011–2014

Adviser to Thai investors on sapphire and gold projects in Rwanda; wider East/Central Africa business linkages.

2012

Advisory involvement in hydropower in Lao PDR and a solar-farm project in Nakhon Ratchasima.

2019–present

Community power, grassroots economy, Chaiphum community-enterprise leadership and BIO-NO BURN™ development.
